The Students/Gold Reception is open to all the young computational Intelligence researchers/attendees.

This event, which is sponsored by the IEEE Computational Intelligence Society (CIS) and International Neural Network Society (INNS), will provide an ideal opportunity to meet and network with many young computational intelligence researchers and to hear about a range of initiatives which are ongoing to support our younger members.

Come along and learn how active participation in society activities can benefit you, how to get involved and, of course, to enjoy some great food.

We look forward to seeing you at WCCI2010.

Damien Coyle and Slawo Wesolkowski
